October 2009 Luncheon at Club Quarters

Date: Thursday, October 1st, 2009

Topic: Nanotech in Cleantech

Speaker: Doug Jamison, President, COO and Managing Director at Harris & Harris Group

Harris & Harris first invested in cleantech in 1989, seeding Molten Metal Technology an MIT spin-out in environmental remediation, with \$110,000 and exiting in 1993 by selling their shares in the open market on Nasdaq for over \$30 million. Additionally, Harris & Harris Group's 2003 investment in Nanogram Devices Corp., a company commercializing a unique battery technology, yielded a 3.4 fold return when the company was acquired 13 months later. Harris & Harris Group's cleantech investment thesis is that nanotechnology is the enabling technology for many clean-technology solutions that will compete economically with currently available solutions, and address unmet needs in the global marketplace.

In his talk, Doug will touch upon some of the companies in its current portfolio, e.g., Innovalight, Bridgelux and Solazyme, and describe how Harris & Harris Group's position as a leading investor in nanotechnology-enabled companies uniquely positions Harris & Harris and its shareholders to profit financially from the emergence of cleantech companies in a new investment space.

Doug Jamison is Chairman and Chief Executive Officer and a Managing Director of Harris & Harris Group, Inc. He is a member of the Board of Directors of Ancora Pharmaceuticals, Inc., and a Board observer in Mersana Therapeutics, Inc., Solazyme, Inc., Nextreme Thermal Solutions, Inc., and Metabolon, Inc. He is Co-Editor-in-Chief of "Nanotechnology Law & Business." He is Co-Chair of the Advisory Board, Converging Technology Bar Association, a member of the University of Pennsylvania Nano-Bio Interface Ethics Advisory Board, and a member of the Advisory Board, Massachusetts Technology Collaborative Nanotechnology Venture Forum. Previously, he was a Senior Manager at the University of Utah Technology Transfer Office. He is a graduate of Dartmouth College (B.A., 1992) and the University of Utah (M.S., 1999).

Place: Club Quarters, 40 West 45th Street, New York, NY

Times: 11:30 am Cocktails; 12 noon Luncheon; 1:15 pm Presentation
